GENERAL:

- **Lab Protocol:** Labs to be drawn as needed. Monitoring of medication blood levels will be done as requested by prescribing provider, and follow-up for any abnormal values will be drawn as needed.
- **Immunization Protocol:** Immunization recommendations will be according to the CDC guidelines and New Hampshire School Immunization Guidelines with additional parent/guardian consent
- **Dystonia Protocol** (for students on anti-psychotic medication): Any students that receive an anti-psychotic medication are at risk for EPS (Extra Pyramidal Symptoms). To assess for any adverse reactions, a licensed member from Health Services will do an AIMS/DISCUS assessment at regular intervals.
- **Ophthalmology Protocol:** Any student that receives the anti-psychotic, Seroquel, is to receive a slit-exam evaluation on a yearly basis.
- **Vision Screening Protocol:** Will be completed annually for all students by the Health Services department.
- **Audiology Protocol:** Will be completed annually for all students or as requested by members of their team.

***For any abnormal findings, student will be referred to a specialist for further assessment.**
